EXPERIENCE

Queers In Tech (QIT) Sept 2017 - Present Co-Founder, Software Engineer

- Co-founded QIT, an organization aimed at providing a safe place to identify, architect, and explore solutions surrounding inclusion in tech.
- Cultivate relationships with workshop speakers, technology leaders, innovators, students, and communities aimed at contributing to the development of increased diversity in tech.

Learner's Guild Mar 2017 - Present Apprentice Software Engineer

- Full-time, full-stack, immersive engineering apprenticeship working under the supervision and guidance of Senior Software Engineers.
- Contributed to the development of internal software, program and curriculum design, as well as coaching of new engineers.

San Fran Towers Aug 2014 - Apr 2016 Wellness Director, Site Administrator

- Implemented exercise testing, tracking, and implementation software that increased the overall productivity of the Wellness Department by streamlining processes in a solutions based approach.
- Acted as site administrator in the development of an internal CRM system aimed at increasing communication of program activities between residents and staff.

Self-Employed Aug 2009 - Aug 2014 Independent Personal Trainer

- Designed and implemented live marketing website built through Wordpress.
- Designed and tested several landing pages.
- Utilized Mind Body Online CRM to accept and manage schedule, and process payments.

SKILLS

HTML5, CSS3, D3.js, Bootstrap, JavaScript, jQuery, Node.js, Express, React.js, React-Native.js, Python, Flask, Django, PostgreSQL, MongoDB, Firebase, Penetration Testing.

PROJECTS

Linq Mobile Networking

Contacts application utilizing bluetooth technology to make share electronic business cards. Includes a RESTful API backend built in Nodejs, and a front-end built in React Native. This project is currently in development.
